ANTI-WRINKLE COMPLEX - AMPOULES

BIC4010

BIP4010

Skin Type: All skin types in need of rejuvenation.

Action: Ampoule therapy with highly effective anti-wrinkle complex. Reimparts radiant freshness to tired, dull complexions. Active ingredients stimulate cell activity. Helps to restore the oil and moisture balance. Reduces wrinkles.

CTFA Formula: PLACENTA EXTRACT, POTASSIUM HYALORONATE, HYDROLYZED ANIMAL ELASTIN, IMIDAZOLIDINYLYL UREA 0.25%, METHYLPARABEN SODIUM 0.1%, PURIFIED WATER.

pH Value/Formulation: 4.7 - Active ingredient concentrate

Institute Treatment: Apply the contents of one ampoule to face, eye and neck areas. Dab the concentrate into the skin until fully absorbed. For a more intensive effect, we recommend using iontophoresis or high frequency in addition. Ideal complementary product for ensuring a longer lasting treatment result.

Order Numbers: BIC4010 20 x 5 ml
BIP4010 40 x 5 ml

Notes:
